

# Contraceptive Implant (Implanon NXT) Training for Registered Nurses and Midwives

Develop contraceptive implant insertion and removal skills and improve your understanding of counselling, assessment and complications.

The Contraceptive Implant (Implanon NXT) Training for Registered Nurses and Midwives is an interactive session, incorporating theoretical instruction and simulated practical application.

Participants will:

- complete theory training regarding counselling and assessment prior to inserting the contraceptive implant
- demonstrate practical skills with simulated training on model arms
- learn about the management of complications and bleeding changes with Long Acting Reversible Contraceptives
- develop an understanding of administration of local anaesthetic, insertion and removal procedure, and management of complications

**COST:** \$130
