

FPAA National Certificate in Reproductive & Sexual Health for Doctors

This comprehensive course will expand your knowledge and develop practical skills in the delivery of sexual and reproductive health care.

This nationally accredited course includes a 5-day theoretical module followed by 7 to 9 clinical training sessions. The FPAA National Certificate in Reproductive & Sexual Health for Doctors is awarded on successful completion of both the theoretical and clinical modules. To be eligible for the theoretical component you must have a minimum of one year's postgraduate experience in community based general practice or obstetrics & gynaecology.

Theory course outline

The theoretical component of this course covers the latest in clinical research, interactive case discussions, reflective learning and more. Topics covered include:

- IUDs*
- Contraceptive implant*
- Common gynaecological problems
- Menopause
- Sexually transmitted infections
- Cervical screening guidelines
- Contraception
- Fertility and subfertility
- Sexual violence
- Andrology and urology
- Pregnancy options and abortion services
- Pelvic pain
- Vulval dermatology
- Sexual dysfunction
- and more

Clinical training sessions

Clinical training sessions take place after completion of the 5-day theory course. The sessions are direct hands-on training at SHINE SA clinics, with support from senior SHINE SA clinicians.

Accreditation/Recognition

This education is a CPD Accredited Activity under the RACGP CPD Program for the 2020-2022 Triennium. This activity is accredited with ACRRM.

***Note:** Does not include certification in IUD or contraceptive implant insertion training.
