

2023 Courses

Cervical Screening Provider Course

This interactive course will cover the theoretical knowledge and clinical skills necessary to become a Cervical Screening Provider.

Participants who work within a general practice or community health service and who require cervical screening skills as part of their practice will benefit most from the course.

Theory Component

The theory component comprises of an online learning module and a full day face-to-face workshop. The workshop includes National Cervical Screening Program guidelines, consultation, opportunistic STI testing and clinical skills development with a Sexual Health Teaching Associate.

Clinical Component

Approval as a Cervical Screening Provider involves the development and successful assessment of clinical skills and competencies. This is achieved by undertaking a minimum of five unassisted clinician collected cervical screening tests under the supervision of a Cervical Screening Preceptor and recommendation for approval as a Cervical Screening Provider by your Preceptor. This can occur either through clinical placement at SHINE SA (limited places) or with a SHINE SA approved Preceptor in your workplace.

SHINE SA Approved Cervical Screening Preceptor Program

Medical practitioners, registered nurses and midwives experienced in cervical screening are invited to apply to be Cervical Screening Preceptors for course participants developing Provisional Competency.

COST: Theory Component: **\$650** | Theory and Clinical Component at SHINE SA: **\$950**

Theory Component and Clinical Component in your own workplace with a SHINE SA Approved Cervical Screening Preceptor: **\$750**

WHERE: SHINE SA, 64c Woodville Road, Woodville

DATES: 21 March | 5 July | 25 October **TIME:** 9:15 am – 5:00 pm
