

Adult Gender Affirming Care in General Practice

This workshop is designed for General Practitioners and Nurse practitioners seeking to build confidence and capability in providing gender affirming care to adults.

The session will cover clinical, practical and lived experience perspectives to support inclusive, evidence-based practice.

Experienced clinicians and specialists will present information on a range of topics including:

- Models of care
- Gender affirming hormone therapy
- Sexual health and HIV care with gender care (PEP/PrEP, ARV drug-drug interactions and gender affirming hormone therapy)
- Gender affirming surgery
- Fertility preservation, donor conception and more.
